In re : i-Sirius Co., Ltd
FCC ID : U9S-FX852C
Cover letter

Gentlemen:

The product is Dual Band(GSM850 / PCS1900) WLL Phone.

We already got the authorized FCC ID: U9SFX850C. but there is one variation model in LCD part.(Please check the table as below)

Other part(RF Part and Antenna etc.) are all the same.

The changed model name is FX-852C.

About this device(FX-852C), We want to get the new FCC ID:U9S-FX852C.

Description of change:

Model name	FX-850C	FX-852C
FCC ID	U9SFX850C	U9S-FX852C
LCD Display	Monochrome LCD Display	Color LCD Display

The partial retest of part 22/24 shows that there is no degradation of the characteristics reported in original test report for FCCID U9SFX850. The original test data are representative of and applicable to this new FCCID.

For changed model(FCC ID:U9S-FX852C), We is retested to the SAR Values for worst case configuration only.

The Cradle is authorized under a separate FCC ID: U9SFX853CCRADLE.

The digital/computer portion of the device was authorized under the Declaration Conformity procedure.

Sincerely,

Steve Bae / Product Manager
